

I can solve money problems.  
 I can add coins and find the total.  
 I can work out the cost using the number facts I know.

## Minibeast Price List

**Body 5p**  
**Head 2p**  
**Leg 3p**  
**Wing 6p**  
**Eye 1p**  
**Mouth 4p**  
**Shell 7p**  
**Sting 10p**

**How much do I cost?**

Use the price list to find out how much the snail, bee and spider cost.

Write your own price list. Maybe all the bug bits cost 1p or 2p.

Can you think of your own minibeast money challenge?

How much would the spider bee and snail cost if the prices were doubled?

You have 50p? What sort of minibeast can you afford to make?

Write your own price list. Use silver coins and £1.00 coins.

# Money Spiders

I can make the same total using different coin combinations

1. Draw a large money spider
2. Place a coin or an amount in the middle of the spider
3. Challenge your child to make the amount or value of the coin 8 different ways.

	1p	
	2p	
	5p	
	10p	
	20p	
	50p	
	£1	
	£2
