

National Children's Day

National Children's Day UK

It was 'National Children's Day' on May 17th

National Children's Day aims to highlight the importance of a 'healthy childhood' and the need to protect the rights and freedoms of children, to ensure that they can grow up into happy, healthy adults.

This year, in response to the coronavirus, they would like us to think about what we have learnt from our recent experiences, and what '*small steps*' we can all take to create a 'kinder and more connected world'.

So, lovely children of Mount Street Infants, as you all know about being 'happy, healthy and safe' can you think about your recent time at home and tell us ...

- * Who or what has made you happy?
- * Who or what has helped to you to be healthy?
- * Who or what has helped you to stay safe?
- * What can we all do to make it a better world for you to grow up in?

All these things will help you identify the 'small steps' that you, your family, your community and your world have been taking to create a 'kinder and more connected world'.

CHALLENGE – To think of the ‘*small steps*’ that we are all taking to create happy healthy families, caring communities and a wonderful world.

1. Begin by drawing around one of your feet (we hope you haven't got smelly feet today!)
2. Draw a picture, write a word or sentence inside to tell us how you have been keeping happy, healthy and safe, or how you have helped others to stay happy, healthy and safe.
3. If you have a suggestion on how we can make our world more wonderful too, you could draw a picture or write a sentence about that too.
4. How many ‘*small steps*’ can you think of? You can put all your ideas on one foot, or you could draw around as many feet as you like, adding one idea to each. You could even cut them out and create a ‘small steps’ piece of art and take a photograph to show us if you like.
