

Dyma lliwiau enfys, lliwiau enfys, lliwiau enfys hardd.

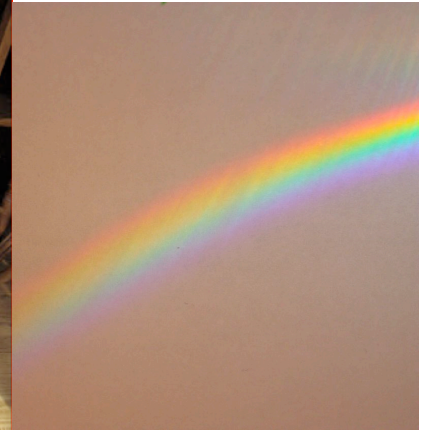

Rainbows have become a symbol of hope during these difficult times.
Here's an idea on how you can make your own rainbow. Stay safe everyone!

Rainbows are formed when light shines through water, like when the sun shines through the rain. This light is bent and reflected, like a reflection in a mirror, and this causes all of the amazing colours that you see.

Make your own rainbow using a mirror.

You will need:

- A glass pan or jar
- A mirror that fits in the pan or jar & Water
- A white wall or ceiling (or white paper to cover a coloured wall/ceiling)

- 1) Pour the water into your glassware. The exact amount doesn't matter.
 - 2) Put your mirror in the water.
 - 3) Place it in a sunny spot.
 - 4) Play with tilting the mirror until you see rainbows form on the wall or ceiling.
-
